Appeal Process for Fees Assessment Waivers and Rebates Policy.

1. Any person or entity that believes that this fee schedule was interpreted or applied erroneously may appeal to the City Administrator.
2. The City Administrator may hear complaints and make corrections of any assessments, established in this fee policy and resolution which are alleged to be incorrect, illegal, unequal, or unjust.
3. The City Administrator may temporarily, if he/she sees fit, adjust, assess, or rebate all or any part of a fee established in this Resolution for fees schedule. Any adjustment of fees will be a one-time only exception. However, this fee waiver/rebate process specifically excludes development and impact fees.
4. The City Administrator can only adjust fees which are less than 3 months old.
5. The City Administrator or designee shall have the authority to waive utility charges up to \$100.
6. If a fee has been assessed to the City as a direct result of the applicant's negligence, inattention, etc., the fee will not be eligible for an appeal. (Example: If a utility payment check is returned to the City for insufficient funds, and the City's bank imposes a fee on the City for processing that returned check, and in turn the City passes that fee along to the user account, that fee isn't eligible for refund.)
7. The appeal shall be filed with the City within thirty (30) business days of the user or customer receiving their billing statement.
8. Appeals shall be submitted **in writing** to the City Administrator, and include at a minimum:
 - a. Date of the request, name, address, and contact information for the requestor.
 - b. An explanation of the circumstances the requestor believes justifies the request.
 - c. The amounts, dates and payment methods for the protested fees.
 - d. The exact relief sought by the applicant (refund, reimbursement, waiver, etc.).
9. The City Administrator will respond to the appellant within 30 days of receiving an appeal and inform the Treasurer, Mayor and City Council of action resulting from the appeal.

The Pleasant View City Council hereby adopts the latest version of the Building Valuation Data as found in the Building Safety Journal. (The following is an example of the valuation data.)

Building Valuation Data

- For purposes of establishing the Permit Fee Multiplier, the estimated total annual construction value for a given time period (1 year) is the sum of each building's value (Gross Area x Square Foot Construction Cost) for that time period (e.g., 1 year).
- The Square Foot Construction Cost does not include the price of the land on which the building is built. The Square Foot Construction Cost takes into account everything from site and foundation work to the roof structure and coverings but does not include the price of the land. The cost of the land does not affect the cost of related code enforcement activities and is not included in the Square Foot Construction Cost.
